DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 10/09/07 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 8/26/2022 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 32-40 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant does not disclose specifically a "storage medium" within the specification of the instant application.

Allowable Subject Matter

4. Claims 21-31 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

Independent claims 21, 22, and 23 are allowable based on the limitation wherein the system discloses at least one further unit to abstain from communications during transmission of the second portion, and wherein the first unit transmits the first portion of the second unit and at least one further unit, the first unit establishing a direct communication channel and transmitting the second portion to the second unit.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
